The EL280 uses two-stage heating to consistently adjust output, so you’ll always feel good.

EL280 | TWO-STAGE GAS FURNACE

The perfect balance of energy efficiency and comfort.
The EL280’s two-stage operation adjusts the size of its flame based on heating demand, allowing it to fine-tune both your comfort and your energy savings with greater precision than a conventional furnace.

**CONSISTENT COMFORT**

An energy rating of 80% AFUE* means the EL280 can significantly reduce your heating costs, compared to an older furnace.

**MONEY-SAVING EFFICIENCY**

*Efficiency Innovations*

- **Dual-Fuel-Capable**
  Can be combined with a Lennox® electric heat pump for peak efficiency.

- **SureLight® Integrated Furnace Control**
  Ensures reliable and efficient operation.

- **Sealed Blower Compartment**
  Minimizes losses and maximizes comfort and efficiency.
NICE & QUIET

The EL280 is made with special sound-absorbing materials that let it operate very quietly. So your peace and quiet are preserved, along with your comfort.

RELIABLY STEADY

Like every Lennox® furnace, the EL280 has undergone rigorous testing in our research lab to ensure the highest level of reliability. So you can relax and enjoy the warmth.

*AFUE, or Annual Fuel Utilization Efficiency, is a measure of how much usable heat is generated when natural gas is burned in the furnace. The higher the AFUE, the more heat you’ll get from your natural gas, and the less gas you’ll have to use to stay warm.

**Covered components may be eligible to receive a 10-year warranty. Online equipment registration at www.lennoxregistration.com is required within 60 days of installation (except in California and Quebec) or Lennox’ base warranty will apply. Applies to residential applications only. See actual warranty certificate for details.

Note: Due to Lennox’ ongoing commitment to quality, specifications and ratings are subject to change without notice.
